EDUCATION

University of Georgia, M.S. in Cybersecurity & Data Security Expected May 2027

- **Relevant Coursework:** Data Security & Privacy, Network Security, Operating Systems, Computer Forensics

University of Georgia, B.S. in Computer Science

May 2026

- **GPA:** 3.50/4.00

PROFESSIONAL EXPERIENCE

University of Georgia Peer Leader Program, Graduate Assistant Product Owner, *Athens, Georgia* August 2026-Present

- Lead the roadmap for digital and operational experiences supporting 204 Peer Learning Assistants, using weekly discovery sessions and stakeholder feedback to prioritize program improvements.
- Automate hiring, onboarding, evaluations, and compliance workflows using Power Automate, SharePoint, Microsoft Forms, Qualtrics, and Excel, reducing manual administrative work and improving data accuracy.

Capital One, Product Manager Intern, Plano, Texas

May 2026-August 2026

- Reduced average loan application processing time by 28% (from 2.9 days to 2.1 days) by identifying operational bottlenecks and launching an AI-powered assistant to 600+ users.
- Conducted 35+ user interviews and translated insights into prioritized requirements, success metrics, interface designs, and a product roadmap focused on the highest-impact user problems.
- Defined personalized loan insights and next-best-action experiences, partnering with engineering, design, analytics, and business teams from product discovery through launch.
- Presented the product strategy, customer insights, and results to Managing Vice Presidents, influencing future investment in AI-enabled operational tools.

Fifth Third Bank, Data Science & Data Engineering Intern, *Cincinnati, Ohio*

May 2025-August 2025

- Increased retention of at-risk customers by 57% by analyzing millions of customer records and delivering data-backed recommendations the company adopted.
- Developed predictive features using Python, SQL, dbt, and Snowflake to identify customer attrition patterns and improve segmentation.
- Built production-ready data pipelines and reusable feature datasets that supported retention modeling and downstream machine-learning applications.

GSA Soccer Association, Project Management Intern, *Dacula, Georgia*

January 2023-May 2024

- Analyzed operational data and developed Excel-based scheduling solutions to coordinate 300+ officials across multiple fields, improving resource allocation and reducing scheduling conflicts.

PROJECT EXPERIENCE

[Cinema E-Booking System](#) | Next.js, TypeScript, PostgreSQL, APIs

- Led product strategy and end-to-end development of a consumer entertainment platform, translating movie-discovery, ticket-selection, and checkout journeys into product requirements and technical features.
- Shipped 30+ full-stack components across personalized recommendations, dynamic seat selection, authentication, and multi-step checkout, owning the experience from product definition and UX design through implementation.

[Trip Sict- Personalized Travel Platform](#) | HTML, CSS, React, MongoDB, APIs

- Built a full-stack travel-planning platform, owning product strategy and development across onboarding, trip management, and personalized recommendation experiences.
- Integrated external APIs and incorporated user feedback to iterate on core journeys and deliver more relevant travel recommendations.

LEADERSHIP & RELEVANT EXPERIENCE

Alpha Phi Alpha Fraternity, Inc., Vice President/Membership Development Chair

April 2024-Present

- Lead chapter operations, member development, scholarship initiatives, and community programming for 70+ people, coordinating with 8 campus organizations.
- Delivered 4 educational programs reaching 112 students and covering academic resources, professional development, and college success.

Management Leadership for Tomorrow, Software Engineering Fellow

August 2023-Present

- Selected for a career-development program providing individualized coaching, professional skill development, and access to a national network of business and technology leaders.
- Complete case studies, technical preparation, and collaborative workshops focused on structured problem-solving, communication, leadership, and data-driven decision-making.
